EDUCATION

Degree [AI & DS]

Passing Year — 2025

D. Y. Patil College of Engineering, Akurdi, Pune.
7.95[CGPA]

Diploma [Computer Science and Engineering]

Passing Year — JUNE 2022

DKTE'S Yashwantrao Chavan Polytechnic, Ichalkaranji.
89.40%

S.S.C.

Passing Year — JUNE 2019

Anas English School, Ichalkaranji.

90.60%

PROJECTS

Project Name — Random password generator using python

Description — This password generator project provides a simple command line interface to generate the random password based on user choice, either simple or complex. Along with this, as the password is generated by the system in a random manner, it is a little bit harder to remember it, so that's why there is one module added using which the user can save that password in a text file.

ACHIEVEMENTS

- Participated in the **C-Cipher** National Level Coding Event which is organized by Dr. J. J. Magdum College of Engineering, Jaysingpur. Got **runner up** in the academic year 2018–2019.
- **Shortlisted** in **AlgoElite** National Level Event which is organized by Walchand College of Engineering, Sangli in academic year 2018–2019.

SKILLS

Technical:

- Knowledgeable in **C**, **CPP, JAVA and Python**.

- Knowledgeable in web development languages like **HTML**, **CSS, Bootstrap and Javascript.**

- Developer tools used like **Visual Studio Code**, **Intellij and Eclipse**.

Communication:

- Able to adapt written and verbal communication as required.

- Able to alter communication type and method according to the scenario and who is involved.

Adaptability:

- Ability to adapt quickly as changes in needs/ requirements arise.

- Grasps new concepts and tools quickly.

CERTIFICATES

- Participated in **Lokraja startup and innovation festival 2022**.
- Certification of **TCS iON Career Edge-Young Professional** course.
- Certification of **MS-CIT**
- Hackerrank certification on the basics of Python.
